

Videos displayed on the Kiosk during the Brain Institute

Monday

“Ain’t Gonna Hold Us Back D-I-G-I-T-A-L”

<http://youtube.com/watch?v=XhzRSGVBWh4>

- ❖ Studies show that technology has become the new "boys club." but the students in Mr. Colosi's first grade class intend to reverse that trend—these girls share their love of technology as a part of their future endeavors. Sung to the tune of Gwen Stefani's "Hollaback Girl," these six-year-old students embrace the available equipment, enthusiastically share some ways they use technology in the classroom, and offer an empowering message of hope to female students.

Tuesday

“Technology in the Classroom”

<http://youtube.com/watch?v=e9uvrowRppw>

- ❖ How several University of Alabama students use technology.

Wednesday

“MathLincs – Making Worldwide Mathematical Connections”

<http://www.mountvernonschools.org/lincoln/imageuploads/file191.wmv>

- ❖ Elementary students discuss their use of technology in making Math connections.

Thursday

St. Clair RESA ‘s “Capturing the Possibilities: Reaching All Learners” (Available for purchase through the website)

<http://www.sccresa.org/resources/videoproductions/specialprojects/>

- ❖ Teachers and students are interviewed and demonstrated using technology tools to meet Universal Design for Learning principles throughout St. Clair County.
